DPW ORDER NO. 176,099

The Department of Public Works hereby issues the following Order which supersedes DPW Order No. 175,973 based upon action by the Refuse Collection and Disposal Rate Board.

Whereas, on January 9, 2006 the SF Recycling & Disposal, Inc. applied for an increase in the maximum rate to be charged for the disposal of refuse collected by licensed refuse collectors in the City and County of San Francisco; and

Whereas, the Director of Public Works has investigated this application and has reported in his Report dated April 6, 2006, that an increase of 4.65% for RY 2007, 10.81% for RY 2008, 13.41% for RY 2009, 17.98% for RY 2010, and 20.72% for RY 2011 has been justified; and

Whereas, the Director of Public Works has found, in his Report, that it is reasonable to increase these base rates each year by a cost of living adjustment (COLA) and the DPW Director will issue rate schedules for RY 2008-11 after applying the COLA factor as appropriate; now therefore,

Be it ordered, for each Rate Year commencing July 1, 2006, that the maximum rate per ton for the disposal of refuse to be charged the refuse collector by any person, firm, or corporation authorized by the Board of Supervisors to dispose of refuse, shall be:

RY 2007	\$107.76
RY 2008	114.10
RY 2009	116.78

DEPARTMENT OF PUBLIC WORKS

DPW ORDER NO. 176,100

The Department of Public Works hereby issues the following Order which supersedes DPW Order No. 175,974 based upon action by the Refuse Collection and Disposal Rate Board.

Whereas, on January 9, 2006 Sunset Scavenger Company and Golden Gate Disposal and Recycling Company applied for increases in the rates to be charged for refuse collection service rendered to residences, flats, and apartments; and

Whereas, the Director of Public Works has investigated this application and has reported in his Report dated April 6, 2006 as modified by Resolution by the Refuse Collection and Disposal Rate Board dated May 22, 2006, that an increase in rates of 16.83% for RY 2007, 20.03% for RY 2008, 22.50% for RY 2009, 24.75% for RY 2010, and 27.53% for RY 2011 to be charged for refuse collection from residences, flats and apartments is justified at this time; and

Whereas, included in the above amounts is \$0.07 per month for a Conversion Incentive Account (CIA) required by the Rate Board; and

Whereas, the Director of Public Works has found, in his Report, that it is reasonable to increase these base rates each year by a cost of living adjustment (COLA), and the DPW Director will issue rate schedules for RY 2008-11 after applying the COLA factor as appropriate; now therefore

Be it ordered that the following schedule of refuse collection rates shall be charged, effective July 1, 2006, by the Sunset Scavenger Company and the Golden Gate Disposal and Recycling Company in the City and County of San Francisco, for rate year 2007 and that the procedures governing the rates as put forth in the said Report are in effect:

For once a week collection of one container not exceeding 2 cubic yard in capacity from street level, not more than one hundred feet from the curb *	281.38

Extra Service Charges for 6 or More Unit Buildings

- (a) Containers shall be located at street level where the service truck must park for access to the customer's service location and shall be of types and sizes, each not exceeding 80 gallons in capacity, suitable for emptying the contents into the collector's can, or shall be appropriate 32-, 64- or 96-gallon carts or 1-, 1.5-, or 2-yard bins. Buildings deviating from any of these requirements, including clearing of disposal chute, or a container located on a ledge one foot or more above the surrounding surface level, shall, for each such deviation, be subject to an additional charge of 50% of the rate that would otherwise apply for that location. For any building with "rake out service," the rate shall be determined based on the rake-out volume times 1/32 of the 32-gal rate times 1.5.
- (b) For any building where the collector must travel above and/or below street level in order to gain access to the container, an additional charge of the rate that would otherwise apply for that location shall be made in accordance with the following schedule:

<u>Travel Distance Above and/or Below Street Level</u>	<u>Added Charge Percent of Otherwise Applicable Rate</u>
4 feet to 8 feet	25%
8 feet to 16 feet	50%
16 feet to 24 feet	75%
24 feet or more	100%

- (c) For collection made from a container located more than 100 feet traveling distance from the curb, an additional charge of 25% of the otherwise applicable rate for that location shall be made.
- (d) For each time use of a key (including key, key pad, combination lock, automatic door opener, or other entry mechanism) is required to enter or leave the premises, an additional monthly charge of \$7.16 will apply. The key charge shall be made according to the frequency of collection service.

Additional requirements and provisions for all customers:

For collections more often than once a week, the rate shall be that for once a week service multiplied by the number of collections per week.

Saturday service is allowed with 3-weekday service or 5-weekday service. Saturday service will be charged at 175% of the applicable base rate for once a week service. For 7-day service, the Saturday and Sunday service will be charged at 450% of the applicable base rate for once a week service. Saturday and Sunday rates are additional to the weekday charges.

For entrance through a trap door, an additional monthly charge of 50% of the applicable basic rate.

A trap door is defined as a container located below street level, where the collector must access the container by lifting off a cover and pulling the container up to street level for servicing.

Street level shall be determined where the service truck must park for access to the customer's property. Location of a container above or below street level shall be determined by adding all distances above and below street level which must be traversed by the collector to gain access to the container, without regard to the actual relationship of container location level and street level.

For each check returned unpaid by the maker's bank, a minimum service charge of \$15.00.

A separate container shall be provided for each dwelling unit. A container may be shared by more than one dwelling unit provided that the minimum refuse service requirement per unit is met. The minimum refuse service requirement is 20 gallons for a single-family and 16 gallons for multiple units.

Credit will be allowed for suspension of service (e.g., vacations) for more than a two-week period. Customers must notify the Company of the suspension before the start date of the suspension. A restart date of service must be given at the time of notification, otherwise the account will be closed instead of suspended. An administration fee of \$10 will be charged to restart the service after suspension or closing of an account.

The Company is responsible for normal wear and tear of the containers provided to the customers. Customers are responsible for damaged carts beyond wear and tear. Customers are responsible to report missing carts and sign the related form; customers are responsible for excessive missing carts. Cleaning service is available with additional charges.

Access to containers shall be unobstructed. Containers shall be placed at locations adequate to permit the refuse collectors free and clear access to and from the containers so that they can be serviced in a normal and safe manner.

In order to receive free collection of cardboard, the following requirements must be met. The maximum dimensions of the material may not exceed 2 feet by 3 feet. All material must be either (a) placed in a blue recycling collection container or (b) bundled with string or placed in cardboard boxes or paper bags that meet the maximum dimension requirements. The charge for noncompliance with the cardboard setout requirements is \$5 per setout.

The Universal Residential Rates apply to the following buildings:

- (a) Single-Family Houses and flats
- (b) Apartment with less than 600 rooms
- (c) Condominium, tenant-in-common, and in-law units unless wastes are combined with commercial wastes in mixed-use buildings
- (d) Live-work units unless clearly commercial
- (e) Hotels that charge by week or month
- (f) Residential in a mixed commercial and residential building with separate residential collection service

* Surcharge for Special Reserve Fund - There shall be added to each billing rendered for services a surcharge of 1.3% of the volumetric portion of the bill. The services subject to the surcharge have been identified in this with an (*) after description.

Fred V. Abadi, Ph.D.
Director of Public Works

APPROVED: Fred Abadi

IMPOUND ACCOUNT PROCEDURES

The funds from the Impound Account will be utilized for certain "pass-through" obligations including costs required by law or contract and funding for City programs as described in the 2006 Hearing Officer's Report. The deposits to the Impound Account for the Rate Years beginning 2007 through 2011 are as specified in the Hearing Officer's Report.

The Impound Account will be held in a separate bank account earning the highest available market rate interest.

The uses are as follows:

<u>Payee</u>	<u>Purpose</u>
1) City & County of San Francisco	Department of Environment and DPW costs, as approved by City budget
2) Alameda County	Disposal, regulatory and mitigation fees and business tax license
3) Waste Management of Alameda County	Disposal fees

The use of funds from the Account shall be subject to the following conditions:

- a. The purpose of expenditures shall be limited to the above listed obligations and shall not be enlarged to cover any unrelated purposes.
- b. When making an annual rate adjustment for COLA purposes, the Director of the Department of Public Works shall review the balance in the Impound Account, the current approved City budget for Impound Account-funded activities, any known liabilities for payment from the Impound Account and other relevant factors to determine whether there is a surplus of funds in the Impound Account in amounts exceeding \$200,000. If the Director determines that there is such a surplus, the Director shall make the appropriate downward adjustment to the rates when the annual COLA adjustment is determined to reduce Impound Account accruals for the coming year by the amount of the surplus over \$200,000. The Director's determination shall be documented in a DPW Director's Order.
- c. The unexpended balance of the funds shall be invested for the benefit of the ratepayers, and all investment earnings shall be deposited to the Impound Account in addition to the amount specified in (e) of these procedures.
- d. The Impound Account will be continued as a separate bank account under the combined control of SF Recycling & Disposal, Inc. and the City Administrator of the City and County of San Francisco.
- e. The SF Recycling & Disposal, Inc. will have the responsibility of depositing revenues monthly upon receipt from collection companies in the amounts outlined for each rate year described in the Director's Report.
- f. For reimbursement of City costs, the bank will draw monthly from the Impound Account checks in favor of the City in care of the City Administrator.

g. Disbursements from the Impound Account will require the signatures of two parties – the President of SF Recycling & Disposal, Inc., or his designee, and the City Administrator, or his designee.

h. SF Recycling & Disposal, Inc shall report quarterly on deposits and expenditures from the account and shall submit an annual audited report.
